About Wizehire

When we started Wizehire back in 2014, we knew that we wanted to build a company that would level the playing field for small and growing businesses. From our experience helping Fortune 500 companies turnaround their hiring results, we knew that finding the right people is a major challenge for hiring managers, even with the support of HR teams and full-time recruiters.

For small businesses, those options are too expensive and time-consuming, leading to an ad-hoc DIY approach that can lead to slow results and expensive hiring mistakes.

Our Mission

Empowering businesses to go and grow.

How Wizehire Works

The hiring process is complicated and time-consuming for many businesses. Wizehire empowers you to expand your reach and get in front of the right candidates; easily engage top talent and onboard them seamlessly from the start. With best-in-class tools and expert support at every step of the hiring process, you can grow your team with confidence.

Data & Trends

Trusted by thousands of businesses across multiple industries

Testimonials

"I would recommend Wizehire from a place of saving time and money - simplifying operations, enhancing accountability and being able to track the process across multiple locations.

The expert support is great, the team is refreshing, and people smile along the way. I'm happy to work with them, that's a win-win, I think."

- Peter Twachtman
CEO of Lark Hospitality

"Being in the hospitality industry, soft skills are really important. People's personalities and how they interact with the guests is extremely important.

Wizehire was a lifesaver. We were able to get to candidates with the right personality within 24 hours and ping them, get them in. Some of them on the same day and we were able to hire them like that. The last four hires are probably four of the best employees we've ever had."

- Tushar Patel
Hotel Owner at Best Western

“Using Wizehire allowed us to funnel qualified applicants to where we could choose the best of the best. We are now extremely successful with the individuals we choose to be part of our sales team.”

- Kris Morales

Sales Manager at Barker Mazda

“It’s been really exciting to be able to bring in top quality paralegal talent. We had so many people to choose from who were rated on so many different criteria that we were able to select from the cream of the crop, which is really what we need to fill out our team.”

- Kate Mataya

Senior Associate Attorney at McClure Law Group

“It’s a smarter investment, especially if you’re opening a new location, or you’re doing something that’s going to require a lot of applications. You’ll go broke on some of these sites - paying per resume, and then it doesn’t necessarily guarantee you’re going to be able to hire any of those.

I think it’s a smart option, but it’s an even better option if you’re opening a new location, or if you’re looking to hire multiple people.”

- Christian Chairez

General Manager at Pizzo’s Pizzeria & Wine Bar

Boilerplate

Wizehire is an award-winning, end-to-end hiring platform that marries innovative software with the hands-on expert support you need to grow your team with confidence. Since 2014, Wizehire has been leveling the playing field for growing businesses with our people-first approach to recruiting, engaging, and onboarding top talent. Our solutions provide you with an intuitive applicant tracking system, hiring experts, and resources like

research-driven screening methodologies, industry-optimized job templates, and a growing suite of onboarding integrations to save you time. Over 18,000 businesses trust Wizehire to help grow their teams.
